

GFP-ATEX
PNEUMATIC TORQUING PUMP

Available in electric and pneumatic power sources, ABS Torquing Pumps are specifically designed to simplify the process of tightening or loosening bolts, nuts, and other fasteners. Our pumps apply torque with precision and generate the necessary hydraulic pressure, serving as an integral component of torque wrench systems. We offer a wide range of distinct models that can be selected according to specific requirements.

MODEL	GFP-ATEX
AIR PRESSURE (bar)	5-12 bar
POWER (kW)	2.8
OIL FLOW (lpm)	7.5 (LP) x 2.5 (MP) x 0.9 (HP)
WEIGHT (kg)	Without Oil: 26 / With Oil: 29
DIMENSIONS (cm)	50 (L) x 27 (W) x 39 (H)
FLUID CAPACITY (Ltr)	3.85
